

## **FORMULA 18: Should people be given X?**

*Should people be given more holidays?*

*Should people be paid more if they work overtime?*

*Should children be required to wear a uniform to school?*

- 1. Show that you are aware the question is asking about people in general and not about you.**
- 2. Say whether you think X should or should not be given to people.**
- 3. Give reasons to support your opinion.**

### **Should people be given longer holidays?**

Yes, they certainly should! As I see it, people often work very long hours but don't get a high salary or very many benefits in return. In fact, many workers frequently do unpaid overtime for their companies. I strongly believe that workers deserve to be given longer paid holidays so that they can relax more. In my opinion people are given more paid holidays they are more loyal to their company in the long-term and probably work harder because they are more contented with their job.

### **Do you think that students should be required to wear a school uniform?**

Absolutely not! I strongly believe that students should have the freedom to wear what they like in school. I think it's unfair to make children all look the same. School is place for hard work and study, but also a place for children to learn to become individuals with their own styles, ideas and opinions. Young people ought to be given more choice in what they wear. If children are controlled too much when they are young, they can become very rebellious in later years.
